

Industry Sector Leaders,

Please see below link for updated information for the King's coronation, including maps and a letter which explains road closures.

<https://www.westminster.gov.uk/coronation-king-charles-iii/travel-changes-during-coronation-king-charles-iii>

Further information about the event from DCMS can be found at <https://coronation.gov.uk/>

**Parking restrictions** will be in place and anybody needing to park in this area are strongly advised to check local signage for changes to parking availability between now and after the Coronation weekend (different restrictions may be imposed in different roads at different times).

We hope that by sharing this information widely now, we will be able to help people make alternative arrangements where necessary. We are aware that there will be a large number of street parties across London over the Coronation weekend which may result in local road closures, so please check local traffic advice if travelling in other parts of the Capital too.

**PS Paul Fagg**

National Business Crime Centre (NBCC)
